

CHARACTERISTICS

BlackJack kentucky bluegrass is an improved variety that offers better disease resistance and turf performance over other varieties. **BlackJack** is a high seed yielder producing a small, high seed count per pound and is very dark in color.

BlackJack kentucky bluegrass is ideally suited for home lawns, commercial properties, golf course roughs, sod farms and other sites where a quality kentucky bluegrass is desired. It has shown to provide some resistance to powdery mildew and stem rust.

BlackJack mixes well with other Kentucky bluegrass, perennial ryegrass, fine fescue and tall fescue.

TRIAL DATA

2008 Rutgers Turfgrass Quality Ratings
Average
LSD 0.9

SEEDING RATES

3-4 LBS/1,000 square feet for new establishment
1-2 LBS/1,000 square feet for overseeding

BENEFITS

- Excellent Seedling Vigor
- Dark Green Color
- Good Disease Resistance
- Fine-Medium Leaf Texture
