

# CLUBHOUSE® CPQ® IT™ Perennial Ryegrass Blend

**CLUBHOUSE® CPQ® IT™** Perennial Ryegrass Blend is comprised of proven varieties that offer **Improved Transition (IT™)** when you want your warm season grass to get going for the summer season.

**CLUBHOUSE® CPQ® IT™** is guaranteed to be free of Poa Annuua in a 50 gram test and may consist of 2 or 3 of the following perennial ryegrass varieties; **Ecologic, Playoff and PlayFast**. These varieties feature excellent turf quality, dark color, fine leaf texture and quick establishment.

**CLUBHOUSE® CPQ® IT™**... setting the new standard for quality and performance when it comes to cool season grasses that will transition.

USGA/GCSAA/NTEP

2004 On-Site Overseeding Trial At Marana, AZ  
Quality Mean Ratings 1-9, 9=Ideal Turf LSD 0.7  
Top variety Playoff 6.8 and bottom variety Colt poa triv 3.9  
The full report is available at [www.ntep.org](http://www.ntep.org) or upon request.

## Benefits & Characteristics

- **Great density during the fall and winter months while providing excellent color and leaf texture.**
- **Better spring appearance than straight intermediate ryegrass or a perennial/intermediate blends.**
- **Less heat tolerant than most varieties on the market today which enhances transition.**
- **Early maturing varieties tend to contribute to improved transition.**
- **Poa free on a standard test.**
