

Turf Type Tall Fescue **Darlington AT**[®]

Product Sheet

CHARACTERISTICS

Darlington AT[®] Turf Type Tall Fescue is one of the darkest green colored varieties on the market today according to the 2009 NTEP data. This variety has shown top notch performance in the hot humid Southeast region.

Other attributes that make **Darlington AT[®] Turf Type Tall Fescue** stand out are maintaining color throughout the winter months, fine leaf texture, brown patch resistance and performance during drought conditions. This variety provides superior density throughout the growing season in all parts of the US due to its aggressive tillering ability which also helps repair damaged areas of turf.

When looking for the best in turf type tall fescue choose **Darlington AT[®] Turf Type Tall Fescue** for your application use on home lawns, parks, sod production, sports fields and commercial properties.
