

# Turf Type Perennial Ryegrass

# Palace

## Product Sheet

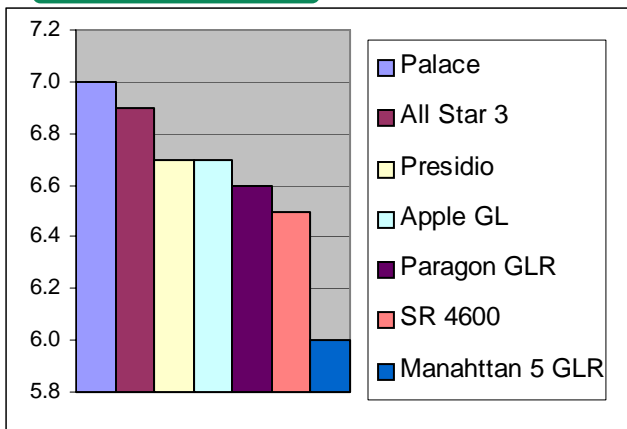

### CHARACTERISTICS

Palace is a progeny collection that exhibits excellent turf quality, even under the highest management levels. Palace was developed to provide a dark green, dense turf that can withstand a number of disease complexes and environmental conditions.

Palace has shown excellent resistance to Gray Leaf Spot in a recent NTEP trial as well as resistance to brown patch, red thread, brown blight, crown rust, stripe rust and leaf spot. With a fine leaf texture and dense turf, Palace consistently rated near the top for wear tolerance.

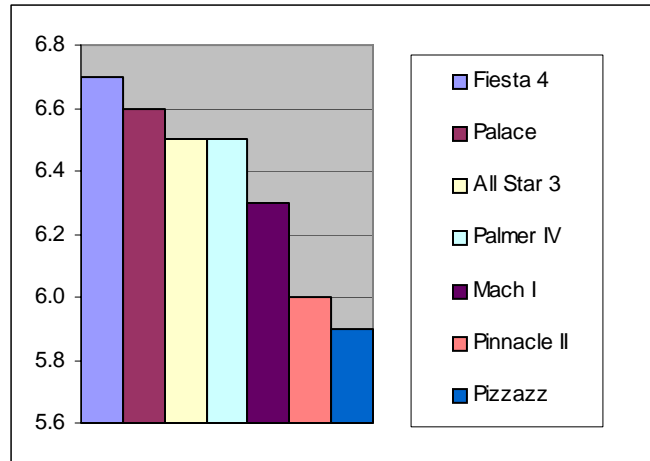

Palace has shown excellent winter activity and is able to survive the winter with little damage.

### TRIAL DATA

2004 NTEP Perennial Ryegrass Test-2008 Data. Genetic Color Ratings. Top variety Halo (7.3) and bottom variety Linn (3.3). LSD 0.3. Mean Quality Ratings 1-9, 9=Dark Green. See full report and more data available at [www.ntep.org](http://www.ntep.org)
