

Perennial Ryegrass

PlayFast

Product Sheet

CHARACTERISTICS

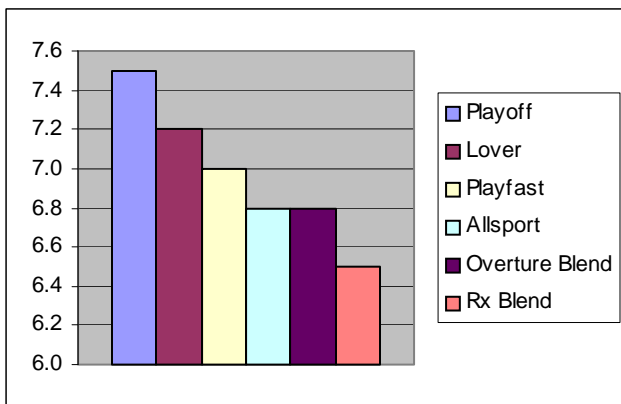

Playfast Perennial Ryegrass is the next generation of overseeding varieties. **Playfast** has been developed and tested exclusively for use in overseeding winter dormant warm season grasses.

Playfast offers improved establishment for quicker play and provides excellent density through the winter and spring. It's outstanding dark green color, fine leaf texture and winter turf density creates a lush attractive turf.

Playfast offers excellent performance during the spring transition season and return to native warm season grasses.

TRIAL DATA

University of AZ
2009-2010 On-Site Overseeding Trial-
Seasonal Mean from 11.14.09-6.30.10
Tucson, AZ

Quality Mean Ratings 1-9, 9=Best Possible Turf. LSD 0.5

SEEDING RATE

Permanent Turf: 7-8 LBS/1,000 square feet
