

Turf Type Tall Fescue Blend

Armada

Product Sheet

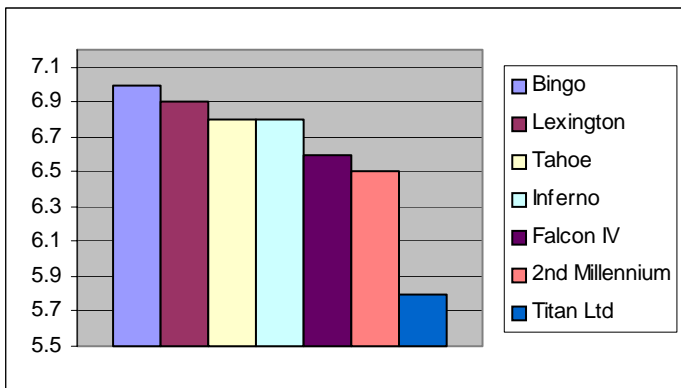

CHARACTERISTICS

Armada turf type tall fescue blend is particularly adapted for the Transition and Northern zones. With improved varieties such as Lexington, Bingo, Tahoe, and Yosemite comprising the blend, Armada has shown improved color, texture and density.

Armada is quick to establish and features excellent resistance to a complex of diseases including brown patch and leaf spot.

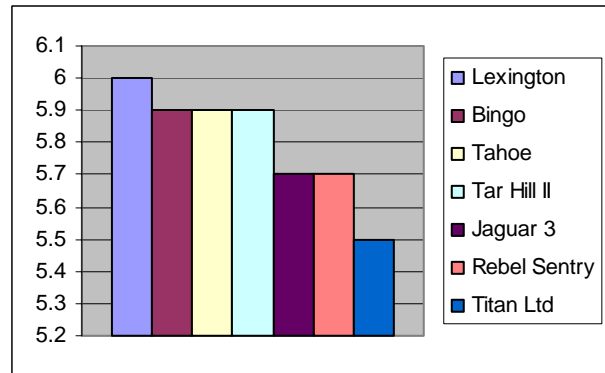

In addition to excellent heat and drought tolerance, Armada exhibits good wear resistance, early spring green up, fine leaved textured, dark green color that provides an exceptional turf under many applications.

TRIAL DATA

2001 National Tall Fescue Test
2002-05 Data Report
Genetic Color Rating
Ratings 1-9, 9= Darkest Color
